Since 1984, the name Grundorf™ has been synonymous with quality cases, recognized by leading performers as the finest cases in the marketplace today. We offer a variety of different case design and construction methods to meet the demands of our diversified customer base. We have outlined the main features of each case series for you below.

## CARPET SERIES

The Grundorf Carpet Series is constructed of premium grade plywood, and covered with durable carpet finish. The key features of all products in our Carpet Series are:

- Carpet inlaid behind recessed catches to provide a continuous “Rug-to-Rug” seal
- 10° beveled lid cut to ensure proper lid alignment and dust tight seal
- Recessed catches with dowel alignment to ensure a proper lid alignment
- Available in Black or Gray carpet finish

## PRO SERIES

Each Pro Series model is designed with an ‘ATA’ look, without the cost of a true ATA case. Constructed with vinyl laminated plywood. The key features of the Pro Series are:

- Edges are finished with heavy-duty, double edged aluminum extrusion
- Interlocking aluminum tongue and groove valance system to provide a tight seal
- Heavy duty recessed handles and padlocking recessed catches
- Available in Black

## TOUR 4 SERIES

The Grundorf Tour 4™ Series is constructed with 1/4” multi-layer plywood, with durable ABS laminate finish. The key features of all the products in our Tour 4 Series are:

- An exclusive “no cut” extrusion design to provide a seamless seal around the case
- Edges are finished with heavy-duty, double edged aluminum extrusion
- Interlocking aluminum tongue and groove valance system to provide a tight seal
- The handles and catches all use a steel washer backed rivet system for greater durability

## TOUR 8 SERIES

The Grundorf Tour 8™ Series is constructed with 3/8” multi-layer plywood, with durable ABS laminate finish. The key features of all the products in our Tour 8 Series are:

- The edges are finished with double edged aluminum extrusion
- Interlocking aluminum tongue and groove valance system to provide a tight seal
- We use 9 rivet point recessed handles and 10 rivet point recessed catches
- The handles and catches all use a steel washer backed rivet system for greater durability

## TOUR 2 SERIES

The Grundorf Tour 2™ Series cases are constructed with 1/2” multi-layer plywood, with durable ABS laminate finish. The key features of all the products in our Tour 2 Series are:

- The edges are finished with double edged aluminum extrusion
- Interlocking aluminum tongue and groove valance system to provide a tight seal
- We use 9 rivet point recessed handles and 10 rivet point recessed catches

## STUDIO SERIES

The Grundorf Studio Series products are designed and constructed for permanent installations such as studios, corporate, house of worship, and any place where a “road case” look is not desirable. Each Studio Series product is constructed with 13-ply Baltic birch. The key features of all the products in our Studio Series are:

- Available with black or white spatter paint finish or in a natural finish which can be painted, stained or used as is
- Each item comes fully assembled and ready to use – No Assembly Required!

## METAL SERIES

The Grundorf Metal Series offers rack selections in our ISO and RACK SHELL categories. Some key features for these products are:

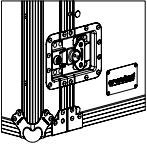

- Ventilation is provided on each side
- Both leveling feet and hooded casters are included
- Accessory hardware is included to customize the rack to fit your requirements
- Equipped with front and rear rack rail

All product images, features and specifications supersede all others previously issued and are subject to change without notice. Photographs (images) are representative in nature and intended to provide a general representation of the products and may show optional items not included. Grundorf is not responsible for any typographical errors or omissions. The images in this catalog are representative of the full product line available from Grundorf. For complete product line information and detailed specifications, please check out our website at [www.Grundorf.com](http://www.Grundorf.com).

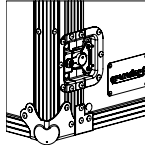

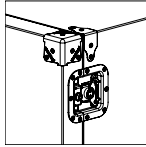

# Amp Racks

**R**ack up your gear in Grundorf Amp Racks. Super solid construction and unmatched Grundorf quality make these racks invaluable for any set up. Amp racks are designed to carry and protect your heavy amplifiers. They are rugged, strong, and built to take the rigors of the road! These racks each have two full cap style lids allowing room for amplifier handles in front of the rack rails.

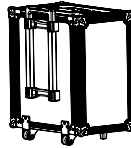

Optional  
Locking  
Recessed  
Latch

## CARPET SERIES

- 2 space racks have surface mount latches and handles. All other sizes have recessed catches and handles. Choose an 18" or 23.5" rackable depth.

Optional  
External Pull-  
Out Handle  
and Surface  
Edge Mount  
Casters

## TOUR 2 SERIES

- Grundorf Tour 2™ Series Amp Racks are for the road dogs out there who require a rack that will withstand all the abuse the road has to offer. Choose 17.5" or 23.5" rackable depths.

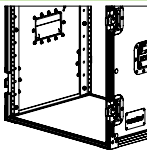

## TOUR 4 SERIES

- Rack up your gear in Grundorf Tour 4™ Series Amp Racks. Super solid construction make these racks invaluable for any set up. Choose 15" or 17" rackable depths.

Optional  
Wishbone  
Table Leg

Optional  
Rear Rack  
Rail

Medium, Medium/Brake,  
Large, Large/Brake

## PRO SERIES

- Grundorf Pro Series Amp Racks are the next best thing to a true ATA flight case. These sturdy cases are designed to carry and protect your heavy amplifiers. They are rugged, strong, and built to take the rigors of the road! Front and rear rack rail is standard on each model. Large 4" caster plates with two brakes are available optionally.

## TOUR 8 SERIES

- Grundorf Tour 8™ Series Amp Racks are true ATA flight case quality. If you require the durability and features of flight case construction, Grundorf Tour 8™ is your best choice. Choose 15.5" or 17.5" rackable depths.

# Amp Speaker Cases

**G**rundorf Amp/Speaker cases are all **custom-built to fit YOUR amp!** No more lugging around a manufacturer's "stock" sized case that dwarfs your amp and takes up way too much room in your vehicle! Each case is fully lined with 1" high-density foam to provide a "glove" fit and fully protect your valuable gear. And the best news is with a Grundorf case, you save money! We don't charge extra for the custom fit!

## CARPET SERIES

- Grundorf Carpet Series Amp/Speaker cases are constructed of premium grade plywood, and covered with durable carpet finish.

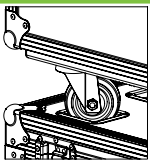

## TOUR 4 SERIES

- The economical choice for a flight case is the Grundorf Tour 4™ Series. Each case is custom built to fit your amp or speaker.

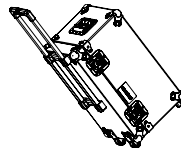

## TOUR 2 SERIES

- For the best protection a flight case can offer, go with the Grundorf Tour 2™ Series. Each case is built to custom fit your amp or speaker.

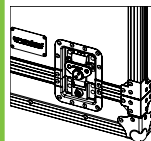

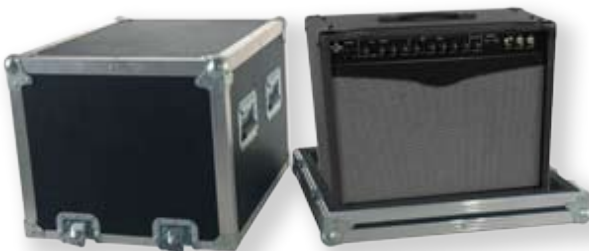

Optional Stacking Caster Dish

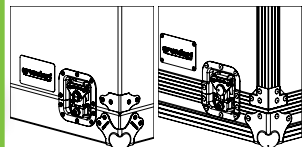

Optional External Pull-Out Handle And Surface Edge Mount Casters

## TOUR 8 SERIES

- Choose Grundorf Tour 8™ Series cases for a true ATA quality flight case. If you require the durability and features of flight case construction, Grundorf Tour 8™ is your best choice. Each case is custom built to fit your amp or speaker.

Optional Locking Recessed Latch

# Audio Visual Cases

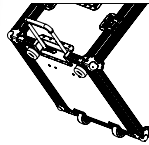

**G**rundorf's Audio Visual cases are the perfect solution for storing all your non-rackmountable equipment, A/V gear, broadcast equipment, amps, players, guitar speaker stacks, etc. in a custom fit case. Audio Visual cases are available in the Carpet, Tour 4™ Series (1/4" ATA), Tour 8™ Series (3/8" ATA), and Tour 2™ Series (1/2" ATA) and are equipped with recessed catches and handle(s) to keep your gear protected.

**A**ll Audio/Visual style cases are available as custom orders. You supply the dimensions (height, width, and depth) of the equipment, and we build around the size of the gear. Because each case is custom built, these can be modified for multiple compartments with different interior finishes (1" foam, black paint, rack rail, etc). Optionally, you may choose a solid back for wall mounting or have the doors hinged on the left or right for access.

## Tour 2 Series

- For the best protection a flight case can offer, go with the Grundorf Tour 2™ Series. Each case is built to your specifications.

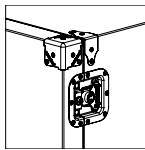

Optional  
Internal Pull-  
Out Handle  
and Recessed  
Edge Mount  
Casters

## Carpet Series

- Grundorf Carpet Series Audio/Visual cases are constructed of premium grade plywood, and covered with durable carpet finish. All cases are custom built to your specifications.

Medium, Medium/Brake, Large,  
Large/Brake

Optional  
Locking  
Recessed  
Latch

## Tour 4 Series

- The economical choice for a flight case is the Grundorf Tour 4™ Series. Each case is custom built to your specifications.

## Tour 8 Series

- Choose Grundorf Tour 8™ Series cases for a true ATA quality flight case. If you require the durability and features of flight case construction, Grundorf Tour 8™ is your best choice. Each case is custom built to your specifications.

# Brief - Tec Cases

**G**rundorf offers the ultimate in durability when it comes to tough, hard shell briefcases and tec cases. These cases are built for the road!

**T**he Grundorf Briefcase will give you plenty of ways to organize your valuables. There is room to carry papers, pens, business cards, catalogs, phones, glasses, small mics, cables, and other accessories.

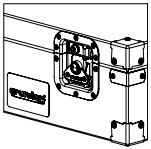

**T**he Grundorf Tec Case is a must for anyone who must carry tools to the job for set up, tear down, and repairing gear. Each Tec Case has a removable tool pallet. There is a multiple pocket organizer installed in the lid for storing documents, pens, business cards, etc. The bottom of the case has three large open compartments to store larger tools, wire, duct tape (can't be without that!), and all the other necessities of life on the road.

**C**hoose the interior and exterior options that best suit your busy lifestyle and get organized!

## Carpet Series

- The Briefcase and Tec Case are both available in the Carpet Series. They each have a briefcase pallet installed in the lid for organizing catalogs and documents. The Tec Case also has a removable tool pallet that fastens into the lid. Each case has padlockable surface mount latches to secure your valuables.

Optional  
Locking  
Recessed  
Latch

## Tour 4 Series

- Built for the road, the Tour 4™ Series Brief and Tec Cases are constructed with sturdy aluminum extrusion, and .25" plywood with ABS laminate finish.

## Pro Series

- The Pro Series Briefcase is a very lightweight alternative weighing in at only 3.5 pounds. This case includes 1", soft, eggshell foam on the top and bottom. The bottom foam is removable to provide additional height inside the case. Two removable dividers in the case bottom provide versatility.

# Custom Cases

**Consider our Custom Cases when your gear requires a truly unique design.**

**We** want our customers to get a case that meets their needs. If you don't see what you need in our thousands of standard model designs, Grundorf can create a custom designed case for your special application. We design and build cases for many different industries including: Audio Visual, Broadcast, Lighting, Touring, Costume Shops, Sports/Athletic Teams, House of Worship, Music, DJ's, Trade Show Displays, Medical Equipment, Sales Rep Samples, and Nightclub/Bars.

## Carpet Series

- Solid, multi-layer plywood construction with a choice of surface mount (economical), or heavy-duty recessed hardware. And of course, our exclusive Grundorf "tricks-of-the-trade" that make our carpet cases unlike any other you will find on the planet.

## Tour 8 Series

- The Grundorf Tour 8™ Series is our most popular choice for flight cases. These cases give you great quality at an affordable price. Tour 8™ is available in most case styles.

## Tour 2 Series

- The Tour 2™ Series is the most heavy-duty construction offered in our flight case series. Tour 2™ construction will provide years of service for your most demanding flight case needs.

## Tour 4 Series

- If you are looking for an economical flight case, consider our Tour 4™ Series cases. Available in most case styles, the Tour 4™ Series is a great choice for your next custom case.

# Combo Cases

Ever wonder how much time and effort could be saved if most, or even all, of your equipment were in one case? The Grundorf Combo Case is the solution! Grundorf's Combo Case is a mixer case and amp rack all in one! This case will organize your gear and make your set up and tear down easy and efficient. Even permanent installations will find this case versatile and functional. You can leave your equipment hooked up and ready to roll! The Grundorf Combo Case - perfect for mobile worship, live performance, DJ's, corporate audio/visual, and even educational use. There are many standard sizes available, although all combo cases may be customized to fit your exact requirements. Combo Cases are available in three styles: Carpet Series, our Tour Series - ATA style, or our Studio Series - corporate/install version.

## Standard features on Carpet and Tour Series include:

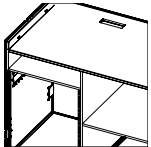

- Mixer section fully lined with carpet
- 4" casters with brakes
- Cable feed access connects all compartments
- Rear cover can be attached when in use to cover rear of rack for attractive, professional appearance

## Studio Series

- The Grundorf Studio Series Combo Cases are the perfect alternative for permanent and semi-permanent installations. The 13-ply Baltic birch constructed enclosures are available in black or white spatter paint finish. You may also order them unfinished so you can paint or stain them.

## Carpet Series

- Our Carpet Series Combo Cases are our most popular. This durable, easy-to-maintain, finish has a sleek, professional look and provides all the construction features you would expect from a Grundorf case. This version of our Combo Case is available with all the options. Be creative – how do you want this case to work for you?

Optional Permanent Shelf

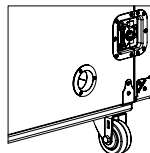

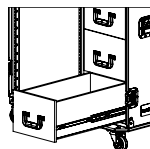

Medium, Medium/Brake, Large, Large/Brake

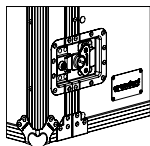

Optional  
Wooden  
Drawer  
On  
Glides

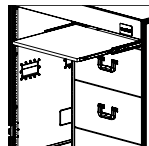

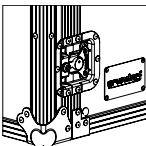

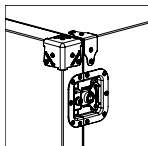

Optional  
Cable Port  
Hole

## Tour 8 Series

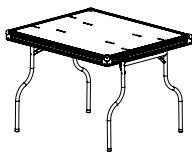

- The TOUR 8™ Combo cases are for those who require flight case construction at an affordable price. These cases are also available with all the options mentioned. You choose the mixer deck size and your rack space requirements. We take care of the rest.

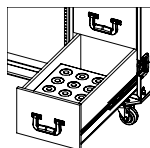

Optional  
Locking  
Recessed  
Latch

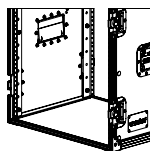

Optional  
Pullout Tray

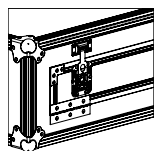

Optional Large  
Wishbone Table  
Legs

Optional Wooden  
Microphone Drawer On  
Glides

Optional  
Rear  
Rack Rail

Optional  
Trap  
Door

## Tour 2 Series

- The TOUR 2™ Combo's provide the maximum protection in a flight case. When your equipment has to endure rough and tough road conditions, chose Tour 2™ to get you there.

# Drawer Cases

The Drawer Case is one of our most popular production and touring cases. These storage solutions will keep all your valuable test equipment, parts, cables, tools, bulbs and other accessories organized and close at hand.

Grundorf Drawer Cases are available in several styles - Carpet Series, Pro Series, and Tour 8™ Series. The Carpet and Tour 8™ Series allow you to custom design a case to your own specifications. Take a look and see which style meets your requirements!

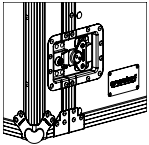

## Pro Series

- The Pro Series Drawer Case is a “stock-sized” case that is not customizable, but suits most applications adequately.

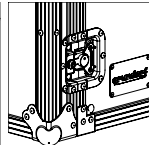

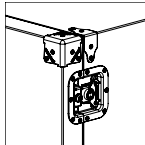

## Carpet Series

- Grundorf Carpet Series Drawer Cases are the economical choice for a rock solid, custom case product that will store all your gear in a compact, mobile case.

Optional Locking  
Recessed Latch

## Tour 2 Series

- The Tour 2™ Series is the most heavy-duty construction offered in our flight case series. Tour 2™ construction will provide years of service for your most demanding flight case needs.

## Tour 8 Series

- The Grundorf Tour 8™ Series is our most popular choice for flight cases. These cases give you great quality at an affordable price.

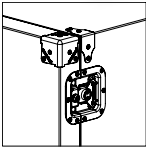

# Equipment Racks

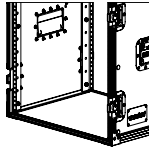

Put your front of house processing or your playback gear in Equipment Racks from Grundorf. The Grundorf Equipment Racks are slightly smaller than our Amp Racks, but still sturdy enough to hold heavy weight gear.

Grundorf Equipment Racks are available with a 16.5" body depth and a 16" rackable depth. These racks each have two full cap style lids allowing room for protrusions in front of the rack rails. These racks are available only in the CARPET SERIES and are equipped with a choice of surface mounted latches and handles or heavy-duty recessed catches and spring-loaded handles.

Check out all the options available on the Equipment Racks; 3" (medium) or 4" (large) caster dolly plates, rear rack rail, recessed key-locking catches, and pull-out (luggage style) handles.

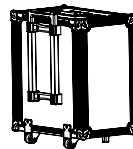

Optional  
Locking  
Recessed  
Latch

Optional  
Rear Rack  
Rail

## Standard Features

- Deep lids to accommodate equipment handles and knobs
- 1/8" thick heavy duty 10/32 tapped rack rail

Optional External Pull-Out Handle  
and Surface Edge Mount Casters

Medium, Medium/Brake, Large, Large/Brake

# Flat Screen Cases

Now you have options when it comes to protecting your Flat Screen (Plasma) monitor. Grundorf Flat Screen (Plasma) Cases are available custom built to fit YOUR equipment! When you order a custom fit flat panel case from Grundorf, you provide the dimensions - we provide the fit. Or you can choose our Pro Series case which is in stock and ready to go. You "customize" the fit with the foam inserts included with the case.

## Tour 2 Series

- The Tour 2™ Series offers a .5" construction and is available as a custom fit case.

Medium, Medium/Brake, Large, Large/Brake

## Carpet Series

- Grundorf Carpet Series - always a great choice when playing "The Price Is Right" game.

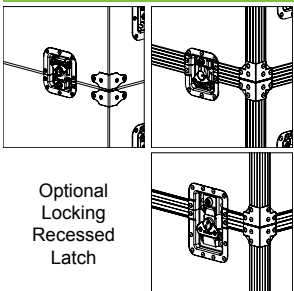

## Tour 8 Series

- The Grundorf Tour 8™ Series steps up to .38" material for better protection of your screen.

## Tour 4 Series

- Tour 4™ is our .25" flight case for flat screens. These are all custom built to fit your specifications.

Optional  
Locking  
Recessed  
Latch

## Pro Series

- Okay with a stock-sized case? Then choose our Pro Series and customize your own fit.

# Guitar Cases

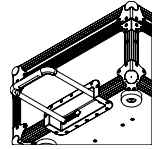

Grundorf offers a variety of products for the guitar including guitar/bass travel cases and display cases, and also the popular Guitar Maintenance Tables.

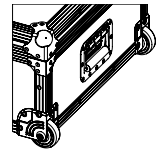

## Tour 4 Series

Every guitar hero needs the innovatively designed Grundorf Tour 4™ Series Guitar Display Case. Now you can show off your prized possession and keep it protected at the same time! Each case comes with a plexi-glass front to perfectly display your guitar while keeping curious fingers at bay.

The Grundorf Tour 4™ Series Guitar Cases are the protection you need for your valuable instrument. These cases are available in a standard open-fit style sized to fit a range of guitars, or choose the custom-fit body style to get that “glove fit” your axe deserves.

Optional  
Internal Pull-  
Out Handle  
and Integrated  
Recessed  
Corner  
Casters

## Carpet Series – Guitar Maintenance Tables

Check out our Guitar Maintenance Tables. Now you have a place to work on your guitar that makes sense! Take this case anywhere and your repair station is ready when you are.

- **GMT-001** - Each table features soft carpet interior and exterior to protect the finish of your guitar. The multi-height option for the neck provides the ideal positioning of electric and acoustic guitars. There are separate compartments to keep your strings, tools and repair parts organized.
- **GMT-002** - This repair station is ready to travel. The same great features as the GMT-001 but with a hinged lid so you can keep your repair supplies with the case.
- **GMT-003** - This is a compact travel version of the Guitar Maintenance Table. The table actually folds in half and latches shut for travel. All the same great features as the original GMT-001, but compact and ready for the road!

# G Series - LED Accessories

The G-Series products, used along with your favorite LED lighting, will enhance the visual experience for your audience by adding a classy, stylish ambiance to the room.

## Led Screens

The Grundorf LED Screens are a top-quality, Lycra® spandex façade. Our facades have the sturdiest wood construction you will find. The cloth inserts are skillfully installed for a totally professional look. **All our facades fold flat for easy transport.**

## G-Screen

Hide your gear behind a façade that conceals the LED lighting fixtures while letting the light shine through for a world-class performance! This facade looks great with or without lights!

## G-Spot

The Grundorf G-Spot is used for concealing your LED up-light effects, but not the illumination.

The G-Spot comes equipped with a tee-nut for securing the light fixture and folds for compact transportation. The G-Spot is constructed with a sturdy wood frame and is finished with durable black carpet.

## G-Box

Just enclose a light fixture under the G-Box and put your audience in the mood. The G-Box also comes equipped with a tee-nut on top for attaching most light fixtures to the top of the box.

# ISO Racks

The Grundorf Isolation Racks are professional, commercial installation equipment racks.

Organic glass provides crystal clear, instant-look access to the contents contained in the 1.5 mm, matte black, metal body. A locking front door keeps your equipment secure while dual 4.5" industrial fans with top ventilation keep it functioning properly. Additional ventilation is included on the 1.2mm metal rear and side removable panels.

Adjustable front and rear rack rail provide up to 20" of rackable depth to accommodate most professional 19" rackmountable equipment. Leveling feet and 2" or 3" casters provide flexible enclosure placement in a variety of applications.

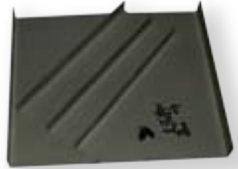

A metal shelf and four pair of shelf brackets are included to accommodate non-rackmountable equipment.

These racks are shipped knocked down - assembly is required.

## Removable Shelf

- A metal shelf and four pair of shelf brackets are included to accommodate non-rackmountable equipment

## Dual Fans

- Dual 4.5" industrial fans vent out the sides of the top panel to keep the equipment functioning properly while also allowing a "no top clearance required" installation

## Casters & Feet

- Leveling feet and 2" or 3" casters provide flexible enclosure placement in a variety of applications

## Removable Panels

- The side and rear panels are completely and easily removed for wiring and installation.

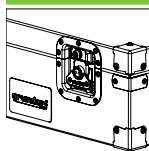

# Keyboard Cases

**You CHOOSE.** Choose an in-stock Pro Series Keyboard case and fit the case to your keyboard, or order a custom-fit Carpet Series or Tour™ Series (ATA) keyboard style case to fit your keyboard. In our Carpet and Tour™ Series, optional compartments may be added to store cords, pedals and other accessories. You can also add optional casters on one end to make transporting your gear even easier.

## Carpet Series

- The Grundorf Carpet Series Keyboard Cases are an industry standard when it comes to the best protection for the dollar. All custom made right here in the US of A. Choose economical surface hardware or the heavy-duty recessed version.

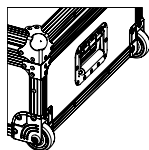

Optional Locking Recessed Latch

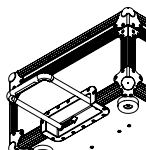

## Tour 8 Series

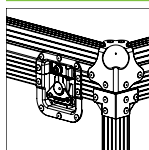

- The best choice when extensive travel is in your future – a Grundorf, custom built, Tour 8™ Keyboard Case.

Optional Corner with Integrated Recessed Caster

Optional Internal Pull-Out Handle

Optional Locking Recessed Latch

## Tour 4 Series

- Step up to our lightest weight flight case with a Grundorf Tour 4™ keyboard case. Always custom built to fit your keyboard.

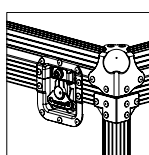

## Pro Series

- The Grundorf Pro Series stock model keyboard cases include our unique interlocking foam blocks allowing you to fit foam around your gear to keep it from shifting during transport. Choose from a 61, 76, or 88 note case. Edge mount casters are standard for easy transport.

# Lighting Cases

Grundorf Lighting style cases are built tough! Many options are available on all Grundorf Lighting style cases including:

- **LID STYLE** - Choose a hinged lid or fully removable lid.
- **INTERIOR FINISH** - Choose a black painted interior, a soft black or gray carpet interior or a foam lined interior. We offer ½", 1", or 2" thick foam. Choose from our softer, high-density foam, or the more firm shock foam. Foam interiors can be custom designed to securely protect your gear.
- **KEY LOCKS** - Add optional recessed key-locking catches to your case to secure your valuable gear!
- **DIVIDERS** - Front-to-back and left-to-right dividers are available to make separate compartments inside each case to fit various sized pieces of equipment.
- **REMOVABLE TRAY** - We can install a removable tray that sits at the top section of the case over separate compartment(s) below.
- **CASTERS** - Add a 3" or 4" caster dolly plate to your lighting case. Brakes are also available for the casters to keep your case stationary. The casters are mounted to a plywood dolly plate which is then mounted to the case bottom.

Optional  
Locking  
Recessed  
Latch

## Tour 2 Series

- For the ultimate protection experience, choose Grundorf Tour 2™ Series Lighting Cases.

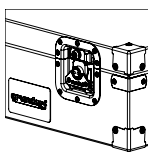

Medium, Medium/Brake, Large,  
Large/Brake

## Carpet Series

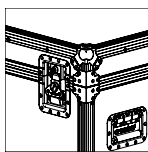

- A great bang-for-your-buck choice. Multi-layer plywood construction, glued and stapled for **maximum strength**.

## Tour 8 Series

- The Tour 8™ Series Lighting Case is the most popular flight style lighting case we sell. Great value and durability.

Optional  
Locking  
Recessed  
Latch

Optional  
Locking  
Recessed  
Latch

## Tour 4 Series

- Our light-weight flight case built with .25" plywood/laminate construction. Great value in a flight style case.

# Media Player Cases

The Carpet, Tour 4™ and Tour 8™ Series cases are designed so each player compartment is sized specifically for your equipment. No more adding or removing foam to make your player fit into a "one-size-fits-all" case or carrying around the weight and bulk of a case far larger than you need. Rear compartments allow easy connections between equipment, and have covers for a clean professional appearance. Front access panels allow you to leave the gear in the case while in use - particularly handy for front load CD players.

The Grundorf Pro Series DJ coffin accommodates most of the popular DJ players and mixers available.

The Grundorf lap top option is now available for all coffin style cases!

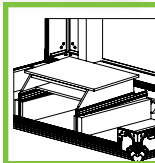

## Tour 4 Series

- Tour 4™ Series offers an economical, light weight, alternative for a flight case.

## Carpet Series

- Grundorf Carpet Series Media Player Cases are still the best value out there. Check out all the features online at [www.grundorf.com](http://www.grundorf.com).

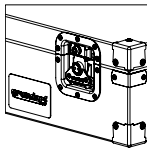

Optional Sliding Laptop Shelf

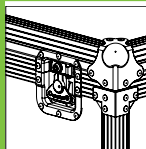

## Tour 8 Series

- The Tour 8™ Series provides the ultimate flight case protection for your gear.

Optional Locking Recessed Latch

Optional Locking Recessed Latch

## Pro Series

- The Grundorf Pro Series is a great choice if you want ATA styling in an economical case. You can see all the features and specifications on our web site!

# Media Storage Cases

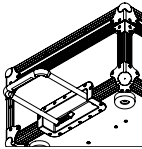

**P**revent damage to your valuable music collection with Grundorf Media Storage Cases. CD's, albums, singles, and even cassettes; we have cases to protect all types of media. Our cases will help protect your music collection from breakage and damaging environmental contaminants.

**A**ll the Grundorf Media Storage cases are constructed with that same great Grundorf quality we have built our reputation on. Even if you don't travel from gig to gig with your media, Grundorf Media Cases make great archival caches - much better than ill-fitting, flimsy, plastic totes, milk crates, or cardboard boxes.

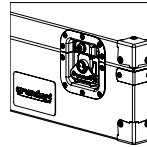

## Carpet Series

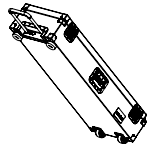

- Grundorf Carpet Series cases – an industry standard since 1984.

Optional  
Internal Pull-  
Out Handle

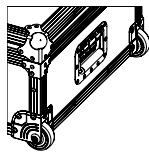

Optional  
Locking  
Recessed  
Latch

Optional  
Internal  
Pull-Out  
Handle and  
Recessed  
Edge Mount  
Casters

## Tour 4 Series

- If you desire the look and features of a flight case – choose our Tour 4™ Series cases!

Optional Corner with  
Integrated Recessed  
Caster

# Mighty Light Series

**Mighty Light™** is an exclusive series of racks and cases only from Grundorf!

Thanks to innovative design and construction techniques and "Mighty Light™" wood, we are able to offer this groundbreaking line of cases and racks appropriately named...**Mighty Light™**.

**Mighty Light™** cases and racks are exactly that, very strong, yet very lightweight.

The ML and MLD racks are available in 2, 3, 4, 6, 8, 10, and 12 rack space models. Each is finished with durable black carpet and all black hardware for a professional look.

## ML RACKS

- These lightweight racks, with 13.25" rackable depth behind the rails, have a front capped lid (2.25" in front of rails), and a pressure fit cover with cable feed on the back.

Medium, Medium/Brake, Large, Large/Brake

## MLD RACKS

- These lightweight racks, with 18.75" rackable depth behind the rails, have a front capped lid (2.25" in front of rails), and a pressure fit cover with cable feed on the back. **The MLD racks accommodate the add-on Kits.**

## Mighty Light™ Kits

- The Mighty Light™ Kits can be ordered installed or as a kit to be added later to any MLD rack. You can turn an ordinary vertical rack into a top-load rack in minutes. You can also house a laptop or Numark CD Mix player on top.

## ML-TL Racks

- The ML-TL racks are portable CD workstations for a compact CD setup. Your controller, mixer and vertical rack space all in one case! Easy to carry - easy to set up!

- The ML-F4863T facade is shown with our AT-6022 table. Check out our adjustable height tables on page 36!

## Mighty Light™ Facades

- The Grundorf facades are the most lightweight facades available! Some are half the weight of other products on the market! These facades fold flat for easy transport. Check out our G Series LED facades on page 16!

# Mixer Cases

Grundorf Mixer style cases are all custom built to fit YOUR gear! No more lugging around a manufacturer's "stock" sized case that dwarfs your gear and takes up way too much room in your vehicle! Each case is fully lined with 1" thick high-density foam to provide a "glove" fit and fully protect your valuable gear.

## Tour 8 Series

- Order a Tour 8™ Series case to get the ATA advantage on your next mixer case purchase.

## Carpet Series

- Grundorf - the strongest, most road-worthy, carpet case on the planet.

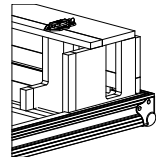

## CASTERS

- Add a 3" or 4" caster dolly plate to your mixer case. The casters are mounted to a plywood dolly plate which is then mounted to the top lid of the case. The minimum ID mixer height is 7" to install a caster dolly plate to prevent the wheels from "knocking". This minimum may require the caster dolly plate to be wider than the actual case.

## DOGHOUSE

- The Grundorf Doghouse allows connectors and snake cables to be covered while the mixer is in use. The doghouse is constructed of birch plywood and has a black spatter paint finish. This doghouse adds 8" cable clearance and 9" to the overall depth of the case. The height of the doghouse is the same as the mixer.

### Tour 4 Series

- The Grundorf Tour 4™ Series is our .25" laminated plywood flight case. Light-weight – Heavy-duty.

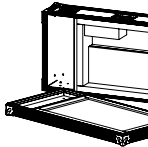

### Tour 2 Series

- For the best protection a flight case can offer, go with the Grundorf Tour 2™ Series. Each case is built to your specifications.

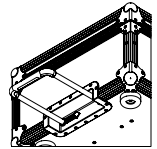

### COMPARTMENT

- Add an additional storage compartment to the side or rear of any mixer case to store power supply, cords, and other accessories. The compartments may have a painted, carpeted, or foam-lined interior finish.

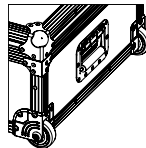

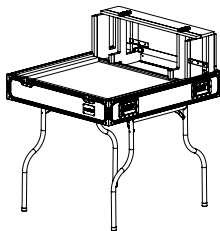

### PULL-OUT HANDLE

- The Pull-Out Handle option is available for most small mixer cases. Choose either an internal or external mount handle style.

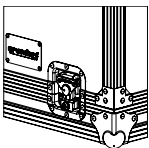

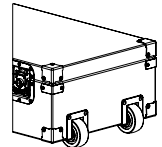

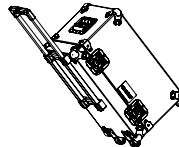

### MIXER TABLE

- The Mixer Table option adds a "lip" under the bottom tray of the mixer case which stores a pair of wishbone table legs. This option requires minimum inside case dimensions of: W - 40" and D - 22"

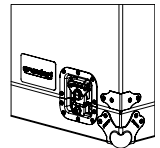

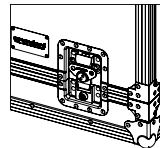

### CASTER OPTIONS

- Choose from 3 castor styles: plastic edge mount, metal recessed edge mount, or integrated recessed corner castor.

### KEY LOCKS

- Add optional recessed key-locking catches to your case to secure your valuable equipment!

# Mic Cases

Choose from our Carpet Series, Pro Series, Tour 4™ or Tour 8™ Series Microphone Cases. Some models feature the added benefit of a foam-lined accessory compartment to store cables, clips, wireless transmitters, batteries, and other accessories. Options are available, including locking latches, pull-out handles, and casters.

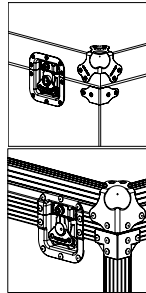

## Carpet Series

- The Grundorf Carpet Series Mic Cases are available to hold 6, 12 or 24 microphones in drop slots. Or you can choose the smaller MCB briefcase sized case to lay mics flat for transport.

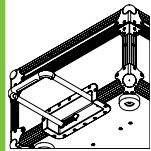

## Tour 8 Series

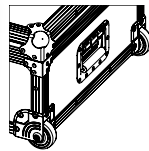

- Tour 8™ Series flight style cases are great for heavy road-use applications.

Optional Locking Recessed Latch

Optional Pullout Handle

Optional Corner with Integrated Recessed Caster

## Pro Series

- The Grundorf Pro Series Mic Cases are available to hold 16 or 25 microphones in drop slots.
- Some models feature the added benefit of a foam-lined accessory compartment to store cables, clips, wireless transmitters, batteries, and other accessories. Don't forget to take a look at the mic stand case!

## Tour 4 Series

- The same great mic cases with a flight case look!

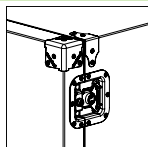

# OU Series

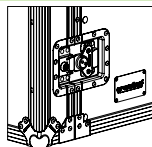

**Grundorf Over-Under™ OU Series** racks provide full functionality and space savings all in one. Available in a variety of configurations, OU Series racks feature the Glide Track™ sliding system that reveals a slanted mixer area, while maintaining an area above the mixer that is incredibly handy for a variety of equipment with displays, such as dual-well CD player controllers. Use the lower vertical section for equipment such as amplifiers, rack drawers, and dual-well CD player transports.

**Another Grundorf innovation** is the ever popular **side table option**. This option is available on the Carpet Series OU-1284CT and OU-1484CT and the Tour 8™ Series T8-OU-1284CT and T8-OU-1484CT.

Double your pleasure! Order an optional OU-TABLE to make a dual-table set up for your gear.

Optional  
Locking  
Recessed  
Latch

## Carpet Series

- Grundorf Carpet Series  
– Great Quality – Great Value!

Medium, Medium/Brake, Large, Large/Brake

## Tour 8 Series

- Step up to Grundorf Tour 8™ Series to get an ATA flight style case for those heavy-touring schedules.

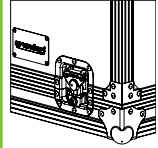

- OU Series racks feature our Glide Track™ sliding system.

# Pull-over Racks

**G**rundorf's Pull-Over Racks will lessen the shock to your rack gear while in transit. The inner birch rack shell actually sits inside a foam lined outer case. The inner rack shell can easily be removed and set on top of the outer case to get the rack gear at a table height. This style is also handy for those needing the rack gear in a studio during the week and out on a gig on the weekends.

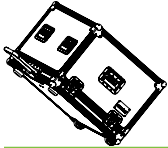

**E**ach rack includes a black spatter painted 24" birch rack shell with four cut out handles. The handles also serve as additional side ventilation. There is 23.5" of rackable depth. The outer case is completely lined with 1" foam for shock absorption (2" foam lining is also available).

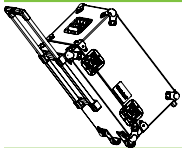

Optional  
Locking  
Recessed  
Latch

## Tour 8 Series

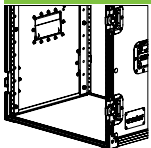

- Grundorf Tour 8™ Series is our standard for flight case construction.

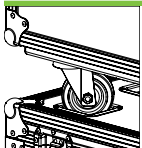

Optional Internal  
Pull-Out Handle and  
Recessed Edge Mount  
Casters

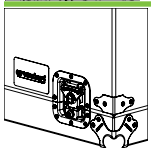

Optional External

Dish

Optional Locking  
Recessed Latch

Medium, Medium/Brake, Large, Large/Brake

## Carpet Series

- You can count on great Grundorf quality in every Carpet Series case.

# Rack Shells

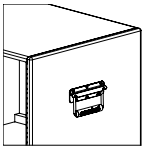

Outfit your home or professional studio with one of Grundorf's attractive and functional Rack Shells.

Rack Shells are the perfect solution for managing rackmountable studio processing, playback and recording gear. They are also perfect for installations where a complete road case is not necessary.

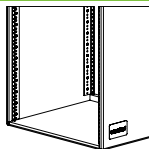

## Carpet Series

- Multi-layer plywood construction, finished in an attractive, easy care, black or gray carpet covering.
- Available with a 16" inch body and 15.5" rackable depth or an 18" body and 17.5" rackable depth.
- Spring-loaded surface mount or recessed handles are optional. These racks are shipped fully assembled and ready to load.

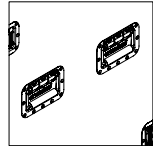

Optional Extra Spring-Loaded Surface Handle

Optional Rear Rack Rail

Optional Extra Spring-Loaded Recessed Handle

## Metal Series

- Professional equipment racks constructed of 1.2mm metal with a matte black powder coat finish.
- Each rack features ventilation on each side and front and rear rack rail accommodating up to a 14.63" rackable depth. Both leveling feet and hooded casters are included. 12 shelf brackets with hardware are supplied to customize each rack. These racks are shipped knocked down - assembly is required.

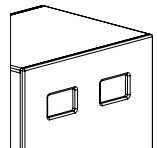

## Studio Series

- Birch plywood construction and available with black or white spatter paint finish or as a natural finish which can be painted, stained or used as is. These racks are available with a 16" inch body and 15.5" rackable depth or an 18" body and 17.5" rackable depth. We can accommodate most requests for custom sizes. These racks are shipped fully assembled and ready to load.

Optional Handle Cut-Out

# Shock Racks

**G**rundorf steps up the level of protection with the Shock Rack Series. These durable "made-for-the-road" racks are engineered to keep your audio gear safe in a foam-surround shock system.

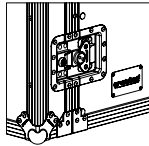

**T**he Carpet, Tour 2™ and Tour 8™ Series models are available in either 18" or 23.5" rackable depths. Each case has a 1" thick shock foam base with 1" thick high-density foam on the top and all sides. A 2" foam surround is available optionally for maximum protection.

**T**he Pro Series models are offered in two different styles – standard shock mount and spring-loaded shock mount styles. Rackable depths vary.

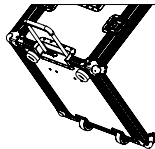

## Tour 2 Series

- The Tour 2™ .5" flight cases are also available in either 18" or 23.5" rackable depths, and various rack space sizes.

Optional Locking Recessed Latch

Optional Internal Pull-Out Handle

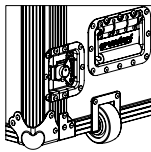

## Tour 8 Series

- Our Tour 8™ flight cases are available in either 18" or 23.5" rackable depths and are available in many rack space sizes.

Medium, Medium/Brake, Large, Large/Brake

Optional Recessed Edge Mount Caster

## Carpet Series

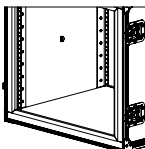

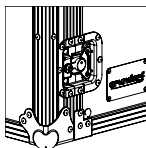

- Many rack space sizes are available in our Carpet Series from 4 spaces through 16 spaces.

## Pro Series

- 4, 6, 8, and 10 space racks are available with an 18.5" rackable depth. Each case has a 1" high-density foam-surround and front and rear rack rail. 12, 14, and 16 space racks have an 18.38" rackable depth between the front and rear rack rails and are equipped with four heavy-duty springs for extra shock absorbency on the bottom of the inner rack shell.

Optional Locking Recessed Latch

Optional Rear Rack Rail

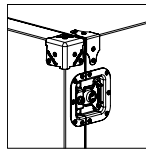

# Side-by-Side Cases

These cases hold amps, controllers, processing, mixers, turntables and CD's all in one case! This case will organize your gear and make your set up and tear down easy and efficient. Even permanent installations will find this case versatile and functional. You can leave your equipment hooked up and ready to roll!

## Carpet Series

- These carry-all cases are constructed of premium grade plywood, and then covered with durable carpet finish. A great choice for organizing all your gear in one case!

Optional Locking  
Recessed Latch

# Slant Racks

Organize your professional or home studio for greater efficiency. With our variety of rack space choices available from 8 to 30 spaces, you can find a rack to fit on a desk top, under a desk, or as large as a floor standing height.

## Studio Series

- The Grundorf Studio Series Slant Racks are constructed of 13-ply Baltic birch plywood, not “build it yourself” MDF or particle board. Each rack is finished with black or white spatter paint or you can order the Studio Series racks with a natural wood finish so you can paint or stain the natural racks to match the aesthetics of your environment. All sizes, 14 space and above, come equipped with concealed casters.
- All Slant Racks are shipped completely assembled.

## Carpet Series

- Our Carpet Series slant Racks are constructed of real multi-layer plywood, not “build it yourself” MDF or particle board. Choose a black or dark gray, durable, carpet finish. All sizes, 14 space and above, may be equipped with concealed casters. All Slant Racks are shipped completely assembled.

# Snake Racks

Each Snake Rack holds a rackmountable snake box and also has a compartment on the utility side to house the snake reel. Benefits of Grundorf racks include the pass-through between the rack and utility sections so the feeder cable can remain hooked up. For added protection, there is a cable port in the rear so the top lid can be attached during use. All snake racks come standard with large 4" caster (with 2 brakes) dolly plates.

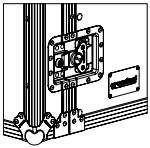

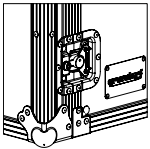

## Tour 2 Series

- If your needs require a "bullet-proof" flight case, step up to Tour 2™. This is our .5" plywood construction ATA style case series.

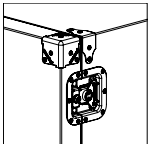

## Carpet Series

- The Grundorf Carpet Series Snake Racks just keep going and going and going.....

Optional  
Locking  
Recessed  
Latch

## Tour 8 Series

- The Tour 8™ Series is the smart choice for a flight case that requires heavy use.

# Top-Load Racks

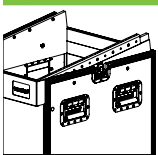

**G**rundorf's Top-Load Rack Series is designed to be light weight yet very durable. Top-Load racks are just that - a slanted top rack that allows you easy access to the controls on your mixer. The lower portion of the case allows racking of even more equipment, such as amplifiers, equalizers, and other processing.

Top-Load racks feature 3 removable covers - top, front and rear, for easy access to all the gear. Cable routing is made easy by an entirely open interior of the case - no fussing over small cable ports. There is a built-in hinged panel to cover the rear of the mixer section.

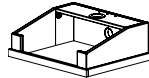

Top-load racks are available to accommodate all your rack mount requirements. Choose from 8, 9, 10, 11, 12, or 13 spaces on the top slant section, 2 through 20 spaces on the bottom.

## Carpet Series

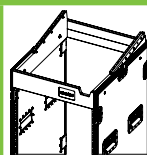

- The 8 and 9 space top slant racks are available with either surface or recessed hardware. The larger, 10, 11, 12 and 13 space top slant racks are available with recessed hardware only. Choose from 2 rack spaces through 18 rack spaces.

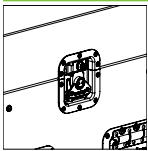

Optional extended front panel adds one rack space to the front of the top slant.

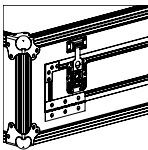

Optional Numark Mod

Optional Presonus Rails

Optional Locking Recessed Latch

Optional Trap Door

Medium, Medium/Brake, Large, Large/Brake

## Tour 2 Series

- Step up to Tour 2™ .5" flight cases when the road demands that extra level of protection.

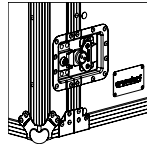

## Pro Series

- The Grundorf Pro Series is an economical choice if you want the look of a flight case. The 2 – 10 rack space models have a 3.5” maximum mixer height and a 17.75” body depth. The 12 - 20 space models have a 5.5” maximum mixer height and a 20” body depth. All Pro Series Top-Load Racks feature an adjustable ratchet on the top slant.

## Tour 8 Series

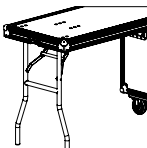

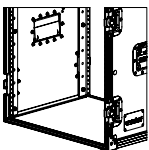

- Grundorf Tour 8™ Series flight cases are the perfect choice for heavy road use.

Optional  
Locking  
Recessed  
Latch

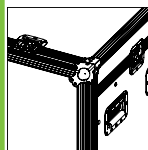

Optional  
Rear  
Rack  
Rail

Optional  
Wishbone  
Table Leg

Optional  
Locking  
Recessed

## Studio Series

- Use the Studio Series to manage rackmountable studio processing, playback and recording gear, or use in installations where a complete road case is not necessary. Available with black or white spatter paint finish or a natural finish which can be painted, stained or used as is.

# Tables

**G**rundorf Tables are excellent travel companions when on the go with your Grundorf cases. Made with the same quality materials and construction as your cases, these tables are built to last! Some models offer adjustable height, locking legs to allow you to set the height of the table to your own comfort level. Steel-reinforced handles and folding legs maximize portability from gig to gig.

**G**rundorf offers many other table models as optional add-ons to existing cases. These optional tables add a wishbone style leg(s) to convert cases to table workstations without having to carry additional pieces of gear saving room, time and money!

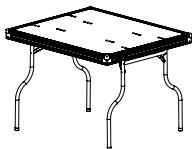

## HEIGHT ALIGNMENT \*\*\*EXCLUSIVE FEATURE\*\*\*

**G**rundorf has added an **alignment marker** to the adjustable table legs to make adjusting the table leg height much easier! Just view the marker through the alignment holes - no more turning the leg to find the button!

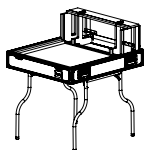

## COMBO TABLE

- Two folding wishbone legs are installed in the back cover of the Combo Case. The free standing table height is 30".

## MIXER TABLE

- The Mixer Table option adds a "lip" under the bottom tray of the mixer case which stores a pair of wishbone table legs. This option requires minimum inside case dimensions of: W - 40" and D - 22".

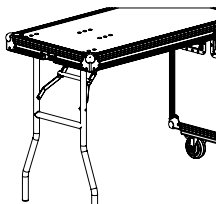

## AMP RACK TABLE

- A single wishbone table leg is installed in the back lid of the rack. Pull the back lid off and attach it to the side of the rack with the hardware included. This option is available for 18 space or larger Amp Racks.

## OU-RACK TABLE

- A single wishbone table leg is installed in the front lid of the rack. Pull the front lid off and attach it to either side of the rack with the hardware included.

## EQUIPMENT RACK TABLE

- A single wishbone table leg is installed in the back lid of the rack. Pull the back lid off and attach it to the side of the rack with the hardware included. This option is available for 18 space or larger Equipment Racks.

## TOP-LOAD RACK TABLE

- A single wishbone table leg is installed in the back lid of the rack. Pull the back lid off and attach it to the side of the rack with the hardware included. This option is available for 12 space or larger TLR racks.

# Utility Cases

**G**rundorf Utility cases are all custom built to fit YOUR gear! When you order a custom fit utility case from Grundorf, you provide the dimensions - we provide the fit. Many options are available on most Grundorf Utility style cases including:

- **LID STYLE** - Choose a hinged lid or fully removable lid.
- **INTERIOR FINISH** - Choose a black paint, soft black or gray carpet, or a foam lined interior. We offer 1/2", 1", or 2" thick foam. Choose from our softer, high-density foam, or firmer shock foam. Foam interiors can be custom designed to securely protect your gear.
- **KEY LOCKS** - Add optional recessed key-locking catches to your case to secure your valuable gear!
- **DIVIDERS** - Front-to-back and left-to-right dividers are available to make separate compartments inside each utility case to fit various sized pieces of equipment. Removable dividers are also available
- **REMOVABLE TRAY** - We can install a removable tray that sits at the top section of the case over separate compartment(s) below.
- **CASTERS** - Add a 3" or 4" caster dolly plate to your utility case. Brakes are also available.

## Tour 8 Series

- Our Tour 8™ Series, .38" laminated plywood, is the most popular flight case style. Let us help you design your next custom Utility Case.

## Carpet Series

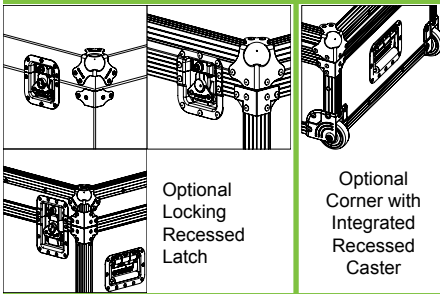

- An extremely sturdy case at an affordable price!

## Tour 4 Series

- The Tour 4™ Series features our "no-cut" extrusion design to provide the best seal possible to protect your gear.

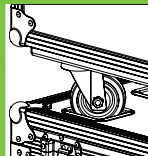

Medium, Medium/Brake, Large, Large/Brake

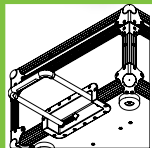

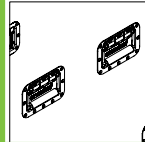

Optional Locking Recessed Latch

Optional Corner with Integrated Recessed Caster

Optional Stacking Caster Dish Option

Optional Extra Recessed Handle

Optional Internal Pull-Out Handle

## Tour 2 Series

- Use the Grundorf Tour 2™ Series, .5" laminated plywood, cases when you demand the very best protection.

## Pro Series

- Our Pro Series Utility Case is a perfect stock-sized transport and storage solution for your touring and production gear designed in a convenient and efficient truck pack size. Check out all the features and options at [www.grundorf.com](http://www.grundorf.com)

# Wireless Racks

Grundorf's Wireless racks are "down-sized" to fit wireless rackmount gear. The Carpet Series, Pro Series, and Tour 4™ Series Wireless Racks are made to accommodate most rear-antenna wireless gear.

Grundorf always aims to please - need a different rack space or a different rack depth than you see shown here? No problem - custom is our middle name. Just let us know what YOU need and we will do our best to accommodate you.

## Tour 4 Series

- Our Tour 4™ Wireless Racks are constructed with .25" multi-layer plywood with durable ABS laminate finish. They have a front-to-back body depth of 8.75" with an 8" rackable depth. The 2 space racks are equipped with surface mounted latches and handle, all other sizes are equipped with recessed catches and handle(s).

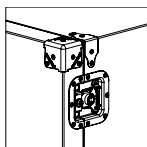

## Carpet Series

- Each Carpet Series Wireless Rack has a front-to-back body depth of 8.75" with an 8" rackable depth. The 2 space racks are equipped with surface mounted latches and handle, all other sizes are equipped with recessed catches and handle(s).

## Pro Series

- Grundorf Pro Series Wireless Racks are currently available in 2 spaces only with a front-to-back body depth of 11.75" and an 11.25" rackable depth. Both lids are 2.5" deep inside and are equipped with foam padding and Velcro® straps to secure your microphones.

Optional Locking Recessed Latch

# Parts & Accessories

**A** completely collapsible handle and platform allow this cart to fold to the size of a briefcase. Strong and lightweight aluminum framing makes it easy to transport. The base may be used in two positions to accommodate small or large loads. Two swivel and two rigid casters are installed to give better steering control. The wheel brakes allow the cart to stay stationary while loading. Durable vinyl corner bumpers are impact resistant and help protect doorways and walls.

**T**he dimensions of the Road-Runner cart, in the fully collapsed transport mode, are H - 9.63" W - 16.5" D - 23.0". The handle height starts at 29.5" and extends up to 38". The platform length starts at 21.25" and extends to an impressive 31.5" for larger loads. The width is 16.5".

**H**eavier gauge steel and aluminum frame for extra strength, durability, and load capacity – now a heavy-duty 300 pounds!

**73-001 Road-Runner Cart**

**B**lack, shock-absorbing padded comfort grip on the handle – no more hot or cold handle to grab!

**T**he handle collapsing mechanism has been improved to function easier and with less friction. A seamless steel tube design offers better handle strength.

**U**ppgraded 4" soft-rubber casters with a wider wheel, large hub and sealed ball bearings for long life. A unique Grundorf exclusive wheel brake designed to stop rotation and swivel at the same time. This improved wheel brake design can now be locked and unlocked with the touch of your toe!

**T**he platform lock is now equipped with a spring and a slotted lock keeper for optimum operation.

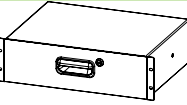

## Rack Drawers

Grundorf Rack Drawers come standard with both a spring-loaded slam lock and a key lock at no additional charge. The slam lock allows the drawer to remain securely closed without using the key lock. For added security, lock it up. Each drawer comes with a set of two keys.

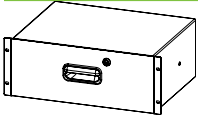

**75-102**
